# CBX FAIRWAY WOOD

**CARBON COMPOSITE SOLE**  
Allows for perfect weight distribution

## THE SPIN KILLER

When Tour Edge engineers introduced their first Exotics fairway wood, they created new benchmarks for distance and power in a fairway wood. With the all-new CBX, Exotics has once again taken distance gains to the next level.

Combo-brazing a Beta Ti cup face to a hypersteel body, the engine of the CBX fairway wood is this combination of superior multi-materials and construction. As a result of this precise engineering, the CBX is a spin-killing distance machine - and the proof is in the numbers. Independent testing proves that the CBX fairway wood outdistances its most popular competitors an average of over 16 yards.

**ADVANCED BETA TITANIUM CUP FACE**  
is combo-brazed to heavier hypersteel body

**VARIABLE FACE THICKNESS**  
technology produces exceptional distance from more contact points

**SPEED RAMP SOLE**  
minimizes turf interaction to maintain club speed through impact

MODEL	LOFT	LIE ANGLE	FACE ANGLE	STANDARD LENGTH
#3	13.5	57.0	Square	43"
#3	15.0	57.0	Square	43"
#4	16.5	58.0	Square	42.5"
#5	18.0	58.0	Square	42"

Available in right hand.

**CARBON COMPOSITE SOLE**  
 Allows for perfect weight distribution

**LOW SPIN PRECISION**

The Exotics CBX hybrid's technology pushes the boundaries of low-spin distance combined with tour-inspired feel and workability.

The Exotics team of hybrid engineers identified the absolute center of gravity location in the CBX and combined it with precise weighting throughout the club head, manufacturing the most powerful weapon in your bag.

The CBX hybrid is crafted using Exotics superior multi-material construction, brazing a Beta titanium face to a heavier hypersteel body. The result is a spin-killing, exceptionally versatile hybrid capable of delivering tour-level distance and performance.

**LIGHTWEIGHT BETA TITANIUM FACE**  
 combo-brazed to a heavier hypersteel body

**VARIABLE FACE THICKNESS**  
 thin and thick compartments are positioned for optimal forgiveness even on off-center hits

**SPEED RAMP SOLE**  
 minimizes turf interaction for maximum speed and stability at impact

**PREMIUM HIGH-PERFORMANCE STOCK SHAFT OPTIONS**

glide easily through any turf

**L-CUP FACE TECHNOLOGY**  
provides unprecedented power  
for maximum distance

**ALL NEW L-CUP FACE DISTANCE**

As a leader in hybrid and Iron-Wood advancements, Tour Edge introduces a remarkable hollow iron design in the all-new Exotics CBX Iron-Wood.

Continuing the Exotics tradition of using superior multi-materials and construction methods, the CBX utilizes a ground-breaking new L-cup face forged from HT980 steel. This revolutionary combination of the L-cup technology and powerful steel material delivers the USGA maximum-allowed CT. In fact, the CBX is the first hollow-style iron to achieve this maximum rebound benchmark!

Delivering powerful distance with minimal spin, the CBX takes aim at players who want hybrid performance combined with the feel and workability of a traditional forged iron design.

MODEL	LOFT	LIE ANGLE	OFFSET	STANDARD LENGTH
2	17.0	59.0	3.0mm	39.75"

**STANDARD GRIP:** Lamkin Z5

**THE FEEL OF FORGIVENESS**

The Exotics CBX Forged irons are triple forged from Japanese S25c Carbon steel delivering a softer feel on every shot and generous forgiveness in a blade. A dual level flange gives enhanced feel, especially on shots struck low on the face, and good acoustics from a forged cavity.

The CBX's cavity is designed for maximum stability and forgiveness. By CNC milling the cavity, engineers developed the deepest cavity possible in a player's iron.

Tour Edge engineers CNC milled the iron face for perfect flatness. The square grooves are also CNC milled and every groove is computer laser engraved, ensuring every iron head is USGA compliant.

**CNC MILLED FACE AND GROOVES**  
provide exceptional feel and performance

MODEL	LOFT	LIE ANGLE	OFFSET	LENGTH
3 Iron	20	60.0	4.3mm	38.75"

**UNSURPASSED PRECISION**

Triple forged from S25 carbon steel with a classic narrow sole, Exotics CBX Blades feature a muscle-back square toe design, thin topline and a beveled leading edge for exact shot control.

Designed from player inspiration and advanced CAD technology, CBX Blades deliver pure forged feel. Precision-milled square grooves are laser engraved ensuring every iron is USGA compliant.

The ultimate design for the purest feel and playability, CBX Blades are ideal for players who expect excellence from themselves and their equipment.

**PRECISION-MILLED SQUARE GROOVES** provide exceptional feel and precise control

**SQUARE TOE AND THIN TOP LINE** provide exceptional feel and precise shot control

**XTREME SPIN GROOVE TECHNOLOGY**  
and dual laser grooves create precise shot control

**EXACT BY DESIGN**

CBX wedges are forged from S25 carbon steel and are engineered to deliver exact distance control, maximum versatility and superior spin.

The CBX's classic shape and thin topline are combined with a custom DG grind method that utilizes heel, toe and trailing edge grinding. This ultimate combination provides unsurpassed versatility and control on critical shots around the green.

CBX wedges create maximum spin from advanced groove engineering that is 100% inspected to conform with USGA rules. The CBX series utilizes dual-groove construction so the lower loft (50° - 52°) wedges are designed with deeper, narrower grooves while the higher lofts (54° - 60°) have wider grooves. The result is optimal contact and maximum spin from each wedge.

## 10" DELUXE STAFF BAG

This is the ultimate staff bag designed to meet the needs of serious players. A stylish contemporary design houses all the features demanded by today's competitive players.

- MULTIPLE POCKETS INCLUDE**  
 Velour-lined valuables pocket, dual accessory pockets, large entry apparel pocket, ball pocket, water bottle holder and integrated umbrella sleeve
- FOUR-WAY PADDED TOP WITH INTEGRATED HANDLE**  
 Includes two-way full dividers provides easy placement and removal of clubs
- ADJUSTABLE PADDED STRAP**  
 Features three-point sling suspension and comfortable foam padding for easy carrying

## DELUXE STAFF STAND BAG

Walk the course in style. The CBX staff stand bag features a tour-quality design in a comfortable, easy-to-carry stand bag.

- SEVEN-WAY TOP WITH FULL LENGTH DIVIDERS**  
 Keeps your clubs organized and easy to access
- MULTIPLE POCKET ACCESS**  
 Including velour-lined, waterproof valuables pocket, large garment pocket and easy access ball pocket
- PREMIUM PADDED DOUBLE STRAP**  
 Provides full adjustability and maximum comfort
- LIGHTWEIGHT QUICK-RELEASE STAND**  
 Includes non-slip rubber feet for stress-free placement on any terrain
